Information about the project

Project abstract in Danish (max. 500 keystrokes)

*

Du har 500 tegn tilbage.

Upon approval, Innovation Fund Denmark will publish the title, abstract and participants on the Fund's website. Accordingly, please make sure that they do not contain any confidential information.

When is it planned the project and education will start and end? Please take an application processing time of two months into account.

Start date  * **End date**  *

Is this a resubmitted application? *

- Yes
 No

Please note that you must attach new signatures at the step 'Appendices' when reapplying, and that you cannot use the signature sheet from the previous application.

Please state the e-grant reference number of the previous application:

*

Please describe the changes made since the last application, including how the specific reasons for rejection have been addressed (max. 2,000 keystrokes).

*

Du har 2000 tegn tilbage.

Primary scientific field of the project:

*

- Humanities
- Agricultural / veterinary sciences
- Fundamental science
- Social sciences
- Health sciences
- Technical sciences

Select one of the above at your own discretion.

Subject area of the project:

*

- Bioresources, Food and Lifestyle
- Energy, Climate and Environment
- Infrastructure, Transport and Construction
- Trade, Service and Society
- Production, Materials, Digitisation and ICT
- Biotech, Medico and Health
- Other

Select one of the above at your own discretion.

The company's project budget

Here, please state the company's expected expenses for the project. Gross expenses must be stated, ie. without subtracting subsidy from the Industrial PhD Programme. The university's expenses are not included.

Please note that this is a non-binding budget which does not oblige the applicant upon project approval.

Gross salary expenses for the Industrial PhD candidate for the entire project period *

This includes effective salary expenses calculated based on the gross yearly salary, incl. pension, insurance and vacation. The company receives DKK 17,000 of the gross salary in monthly subsidy, but no more than half the salary. The salary rates can be found at www.industrialphd.dk.

Please note that you can expect additional salary subsidies of DKK 10,000 per month financed by Realdania during the call on Circular Built Environment.

Expenses for the Industrial PhD student's travels and participation in PhD courses *

The company can receive up to DKK 100,000 for the above. For more, see the guidelines.

Expenses for travel and stays at non-Danish host university

The company can receive up to DKK 122,000 for the above if the non-Danish university enrolls the candidate during the entire project, is responsible for the PhD education, and grants the PhD degree after the education is completed. See more in the guidelines.

Other expenses

- Equipment / facilities *
- Assistant staff *
- Materials/Data collection *
- Company supervisor *

- Assistant staff *
- Materials/Data collection *
- Company supervisor *
- Co-supervisor(s) *
- Administration / office expenses *
- Other *

Please also state "in-kind" financing, ie. expenses that cannot necessarily be invoiced. As an example, the supervisor has to spend time on supervising. This in-kind contribution can be calculated by multiplying the expected hours spent on supervising with the supervisor's hourly wage.

It is not possible to receive subsidy for these other expenses. The information is used to assess whether the project budget is realistic, for statistics and the overall planning of the Industrial PhD Programme.

The company's total assumed project expenses *

Is the company itself able and willing to finance all of the above expenses that are not covered by the applied subsidy? *

- Yes
- No

Special funding for 1:1 tests etc. financed by Realdania

Mark here if you want to apply for special funding for 1:1 tests etc. financed by Realdania. Read more about the special funding in the call on Circular Built Environment [here](#).

Company

Information about the company which will employ the Industrial PhD candidate

The company's CVR number

*

If the company has several CVR numbers, please state the number for the department where the candidate is to be employed during the project.

Please note that subsidy is paid out to the Easy Account (DK: NemKonto) registered for the CVR number.

The company's P number:

A company with a CVR number also receives a P number to state where core functions are performed. A company can have more than one P number. You can find the P number by using the search field above.

The company's name

*

Please provide a name registered by the Danish Business Authority (DK: Erhvervsstyrelsen). To see which names are registered for the CVR number in question, go to www.cvr.dk or use the search field above.

Address line 1

*

Address line 2**Postal code**

*

City

*

Homepage, if any**E-mail, if any****Number of employees, counted in full time positions**

*

Please provide an estimate of the company's number of employees.

The company's sectoral designation

*

Here, please provide the company's sectoral designation (DK: branchekode). The designation has six digits and can be found by looking up the company at www.cvr.dk.

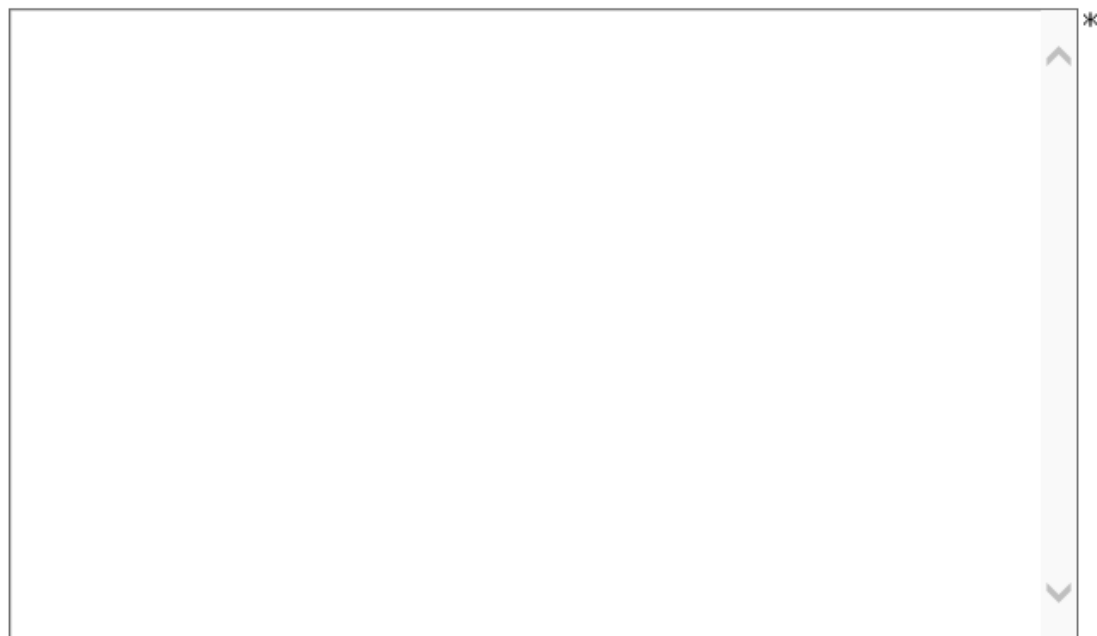

Here, please provide the company's sectoral designation (DK: branchekode). The designation has six digits and can be found by looking up the company at www.cvr.dk.

If the company participates in several sectors, please enter the designation for the department where the majority of the project will take place.

Does the company already have established research activities?

Please account for whether the company already has established research activities within the general research field of the project, selected under the former tab (Industrial PhD project).

By already established research activities Innovation Fund Denmark means recurring and frequent research activities financed by the company's own budget.

Third parties

Information about any third parties

A third party is an organisation that actively participates in and has a formal role in the project. It can be other companies and research institutions, or any other type of organisation in Denmark or abroad.

There are no restrictions on the number of third parties you can attach to the Industrial PhD project. Third parties do not receive project subsidy from Innovation Fund Denmark.

Appendices

Appendices

Here you must attach all appendices required for your Industrial PhD application. The appendix types are:

1. Signatures (Find the template at www.industrialresearcher.dk – remember to submit new signatures when reapplying)

2. Project description (Find the template at www.industrialresearcher.dk)

3. CV for the candidate

4. Full exam diplomas for master's degree

5. Full exam diplomas for bachelor's degree

6. Grade calculations for the candidate (Find the template at www.industrialresearcher.dk)

7. For non-Danish education: Candidate's placement in graduation class

If the candidate has a non-Danish bachelor's degree and a non-Danish master's degree, you must submit documentation about ranking for both educations. Read more in the guidelines.

8. CV for company supervisor (Must list educations. Max. 2 pages)

9. CV for company co-supervisor (Must list educations. Max. 2 pages)

10. CV for university supervisor (must list selected publications and ORCID. Max. 2 pages)

11. CV for university co-supervisor (must list selected publications and ORCID. Max. 2 pages)

12. CV for any third party supervisors (Max. 2 pages)

13. Supplemental appendices, if any

You must use templates for all appendices except CVs and exam diplomas. The templates may be updated between application deadlines, so make sure you are using the latest templates, as you may otherwise receive an administrative rejection. You can find up-to-date templates here:

[Industrial PhD application templates.](#)

The templates contain instructions on how to fill them in.

NB: Supplemental appendices can only be:

The templates contain instructions on how to fill them in.

NB: Supplemental appendices can only be:

- Letters of interest from collaboration partners (max. One page)
- Grant approvals from other funds
- Exit-strategy agreements (see template for the project description, max. 2 pages)

Other types of supplemental appendices **can only be attached** by arrangement with Innovation Fund Denmark. Please notice, that disregarding the limitations can lead to an administrative rejection of the application.

If the candidate only has Danish educations, simply attach an **empty appendix** instead of appendix 7.

Please note that all appendices must be in PDF format.
