Industrial Postdoc project

Information about the project

Project abstract in Danish (max. 500 keystrokes)

*

Du har 500 tegn tilbage.

Upon approval, Innovation Fund Denmark will publish the title, abstract and participants on the Fund's website. Accordingly, please make sure that they do not contain any confidential information.

An Industrial Postdoc project lasts from one to three years. When is the project planned to start and end? Please take an application processing time of two months into account.

Start date  * **End Date**  *

Duration in months

*

Are you applying with or without an Industrial Postdoc candidate?

- With an Industrial Postdoc candidate
- Without an Industrial Postdoc candidate

Is this a resubmitted application? *

- Yes
- No

Please note that you must attach new signatures at the step 'Appendices' when reapplying, and that you cannot use the signature sheet from the previous application.

Please state the e-grant reference number of the previous application:

*

Please describe the changes made since the last application, including how the specific reasons for rejection have been addressed (max. 2,000 keystrokes).

Du har 2000 tegn tilbage.

Primary scientific field of the project:

- Humanities
- Agricultural / veterinary sciences
- Fundamental science
- Social sciences
- Health sciences
- Technical sciences

Select one of the above at your own discretion.

Subject area of the project:

- Bioresources, Food and Lifestyle
- Energy, Climate and Environment
- Infrastructure, Transport and Construction
- Trade, Service and Society
- Production, Materials, Digitisation and ICT
- Biotech, Medico and Health
- Other

Select one of the above at your own discretion.

application**Industrial Postdoc application****Project budget**

The company's project budget

Here, please state the company's expected expenses for the project. Gross expenses must be stated, ie. without subtracting subsidy from Innovation Fund Denmark. The research institution's expenses are not to be included.

Please note that this is a non-binding budget which does not oblige the applicant upon project approval.

Gross salary expenses for the Industrial Postdoc candidate for the entire project period *

This includes effective salary expenses calculated based on the gross yearly salary, incl. pension, insurance and vacation. The company receives DKK 22,000 of the gross salary in monthly subsidy, but no more than half the salary. The salary rates can be found at www.industrialresearcher.dk.

Please note that you can expect additional salary subsidies of DKK 10,000 per month financed by Realdania within the call on Circular Built Environment.

Expenses for the Industrial Postdoc's travels and participation in conferences and stays abroad *

It is possible to receive up to DKK 2,500 for these expenses for every month the project is set to last. Read more in the guidelines.

Other expenses

- Equipment / facilities *
- Assistant staff *
- Materials/Data collection *
- Company mentor *
- Co-mentor(s) *
- Administration / office expenses *
- Other *

- Administration / office expenses

 *

- Other

Here, you should state any "in-kind" financing, i.e. expenses that cannot necessarily be invoiced. As an example, the mentor has to spend time on providing feedback. This in-kind contribution can be calculated by multiplying the expected hours spent on mentoring with the mentor's hourly wage.

It is not possible to receive subsidy for these other expenses. The information is used to assess whether the project budget is realistic, for statistics and for the overall planning of the Industrial Researcher Programme.

The company's total assumed project expenses

 *

Is the company itself able and willing to finance all of the above expenses that are not covered by the applied subsidy? *

- Yes
 No

Special funding for 1:1 tests etc. financed by Realdania

Mark here if you want to apply for special funding for 1:1 tests etc. financed by Realdania. Read more about the special funding in the call on Circular Built Environment [here](#).

Industrial Postdoc application

Company

Information about the company which will employ the Industrial Postdoc candidate

The company's CVR number

*

If the company has several CVR numbers, please state the number for the department where the candidate is to be employed during the project.

Please note that subsidy is paid out to the Easy Account (DK: NemKonto) registered for the CVR number.

The company department P number

A company with a CVR number is also issued a P number to designate where department/site business processes are carried out. The same company can have multiple P numbers. You can find the P number by using the search field above.

The company's name

*

Please provide a name registered by the Danish Business Authority (DK: Erhvervsstyrelsen). To see which names are registered for the CVR number in question, go to www.cvr.dk or use the search field above.

Address line 1

*

Address line 2

Postal
code

*

City

*

Homepage, if any

E-mail, if any

Number of employees, counted in full time
positions

*

Please provide an estimate of the company's number of employees.

The company's sectoral
designation

*

Please provide an estimate of the company's number of employees.

The company's sectoral designation

*

Here, please provide the company's sectoral designation (DK: branchekode). The designation is a six digit number and can be found by looking up the company at www.cvr.dk.

If the company participates in several sectors, please enter the designation for the department where the majority of the project will take place.

Financial key numbers for past three years

Enter the financial key numbers in DKK

	2018	2017	2016
Revenue	<input type="text"/> *	<input type="text"/> *	<input type="text"/> *

The revenue is the company's total income.

Result	<input type="text"/> *	<input type="text"/> *	<input type="text"/> *
---------------	------------------------	------------------------	------------------------

The result is revenue minus expenses.

Assets	<input type="text"/> *	<input type="text"/> *	<input type="text"/> *
---------------	------------------------	------------------------	------------------------

Total value of assets.

Equity	<input type="text"/> *	<input type="text"/> *	<input type="text"/> *
---------------	------------------------	------------------------	------------------------

Equity is the value of assets minus the value of liabilities.

If financial key numbers for past three years cannot be obtained because the company is a recent startup, please account for the company's finances on max. two pages in a supplemental appendix.

Company status as part of the private sector

In order to apply for an Industrial Postdoc, the company must be part of the private sector, as defined in the Guidelines for Industrial Postdoc.

Company status as part of the private sector

In order to apply for an Industrial Postdoc, the company must be part of the private sector, as defined in the Guidelines for Industrial Postdoc.

To be part of the private sector, the company must:

1. Be neither a state, regional or municipal authority nor a professional body for public organisations
2. Have public funding make up no more than half its revenue (including EU subsidy and payments from citizens as imposed by law)

We hereby confirm by a check mark that the above mentioned company is part of the private sector and that public funding make up no more than half its revenue, including EU subsidy and payments from citizens as imposed by law.

Declaration on financial independence

In order to be eligible for funding of an IndustrialPostdoc project, the company must be financially independent of the research institution. This means:

1. There is no cash flow from the research institution to the company.
2. The research institution does own max. 25 % of the company.

We hereby confirm by a check mark that the company is economically independent of the research institution, i.e. there is no cash flow from the research institution to the company and the research institution does own max. 25% of the company.

Declaration on status as undertaking not in difficulty

According to EU's state aid regulation, Innovation Fund Denmark cannot subsidise so-called 'undertakings in difficulty'. In order to submit the application you accordingly have to confirm that the company is not an 'undertaking in difficulty' as defined by EU.

[Find the definition here](#)

We hereby confirm by a check mark that the above mentioned company is not an 'undertaking in difficulty' by the definition of undertakings in difficulty in article 2, no. 18 of the Commission's regulation (EU) no. 651/2014 of 17 June 2014.

Information about any third parties

A third party is an organisation that actively participates in and has a formal role in the project. It can be other companies and research institutions, or any other type of organisation in Denmark or abroad.

There are no restrictions on the number of third parties you can attach to the Industrial Postdoc project. Third parties do not receive project subsidy from Innovation Fund Denmark.

Industrial Postdoc application

Appendices

Appendices

Here you must attach all the appendices required in an Industrial Postdoc application. You must use templates for all appendices except CVs and exam diplomas.

The mentors' CVs must not exceed two pages. Any publications and patents should be included in the CVs.

Please note that all appendices must be in PDF format.

- 1. Signatures (Find the template at www.industrialresearcher.dk - remember to submit new signatures when reapplying)**
- 2. Project description (Find the template at www.industrialresearcher.dk)**
- 3. Budget for research institution (Find the template at www.industrialresearcher.dk)**
- 4. CV for Industrial Postdoc candidate (Must list ORCID)**
- 5. PhD degree or statement on thesis**
- 6. CV for company mentor (Max. 2 pages)**
- 7. Cv for any company co-mentor, (Max. 2 pages)**
- 8. Cv for research mentor (Must list selected publications and ORCID. Max. 2 pages)**
- 9. Cv for any research co-mentor (Must list selected publications and ORCID. Max. 2 pages)**
- 10. CV for any third party mentors (Max. 2 pages)**
- 11. Supplemental appendices, if any**

You must use templates for the project description, signatures and the research institution's budget. The templates may be updated between application deadlines, so make sure you are using the latest templates, as you may otherwise receive an administrative rejection. You can find up-to-date templates here:

[Industrial Postdoc application templates.](#)

NB: Supplemental appendices can **only** be:

- Financial information about new company (max. 2 pages)
- Letters of interest from collaboration partners (max. one page per collaboration partner)

NB: Supplemental appendices can **only** be:

- Financial information about new company (max. 2 pages)
- Letters of interest from collaboration partners (max. one page per collaboration partner)
- Grant approvals from other funds

Other types of supplemental appendices **can only be** attached by arrangement with Innovation Fund Denmark. Please notice, that disregarding the limitations can lead to an administrative rejection of the application.

If you apply without a candidate, simply attach **empty appendices** in place of the candidate's CV and PhD diploma.
