Multi-Annual Investment Plan (MAP)

Setting the framework for IFD’s engagement in international programmes 2023-2025
Where will IFD engage?

- IFD’s will continue to participate in the four overarching international programmes:
  - Horizon Europe (incl. Eurostars)
  - Bilateral collaborations
  - EUREKA
  - Nordic programmes
- IFD will phase out its participation in ERA-nets under Horizon 2020.

How much will IFD engage?

- With a baseline budget of 200 mio. DKK the allocation of IFD’s budget to international programmes will be approximately:
  - 70-75 pct. for Horizon Europe
  - 10-15 pct. for bilateral collaborations
  - 10-15 pct. for EUREKA
  - 5 pct. for Nordic programmes
- If the budget for international programmes is increased from the baseline of 200 mio. DKK, the additional funds will be allocated to the eight new 2nd wave Horizon Europe partnerships.
Who will IFD engage with?

- IFD will strengthen its coordination and alignment of funds with other national funding agencies. Specifically, IFD will advocate for other national funding agencies to channel their funds to those international programmes, where IFD potentially does not have sufficient funds to participate itself.

- IFD can include a national requirement of having non-academic Danish partners in the consortia when, and if, it is relevant for the calls, e.g. in calls where the objective is applied research.
The geography of the 4 overarching programmes

Annual budget 200 Mio.DKK/€40 Mio

Nordic programmes
= 5 % of budget

Horizon (EU)
= 70-75 % of budget

Bilaterale cooperation
= 10-15 % of budget

EUREKA (Global)
= 10-15 % of budget
Allocation by overarching programmes

With a baseline annual budget of 200 mio. DKK
Specific EU Horizon programmes

**Active Horizon 2020 programmes in 2023**
- M-ERA.NET 3
- Geothermica
- JPI Urban Europe
- JPI Urban Europe & China
- Blue Bioeconomy
- Permed 2
- JPI AMR
- JPND

**2022**
- M-ERA.NET 3
- QuantERA Applied
- Permed 2

**2023**
- M-ERA.NET 3

**2024-2025**
- M-ERA.Net 3

**Horizon Europe – 1st wave partnerships 2022-2025**
- Clean Energy Transition (CETP)
- Driving Urban Transition (DUT)
- Sustainable Blue Economy (SBEP)
- Water4All
- Biodiversa+
- Transforming Health and Care Systems (THCS)
- ERA4Health
- Key Digital Technologies (KDT)
- Innovative SME’s / Eurostars & Innowide

**Horizon Europe – 2nd wave partnerships 2024-2025**
- Pandemic Preparedness
- Rare Diseases
- Personalised Medicine
- One Health/Antimicrobial Resistance (AMR)
- Accelerating Farming Systems Transitions
- Animal Health and Welfare
- Agricultural Data
- Safe and Sustainable Food Systems for People, Planet and Climate
Specific Bilateral, Nordic and EUREKA programmes

**Bilateral collaboration**
- Calls every 2. or 3. year
  - India
  - USA
  - China

**Nordic programmes**
- **2022**
  - Nordic Energy Green Hydrogen
  - NordForsk Post Covid
- **2023-2025**
  - Nordic Energy Green Hydrogen
  - NordForsk Ad hoc annual calls*

**EUREKA**
- **2022**
  - EUREKA Photonic
  - Intercluster Sustainable Industry
  - Cluster ITEA 4
  - EUREKA Xecs
- **2023-2025**
  - Intercluster Sustainable Industry
  - Cluster ITEA 4
  - Cluster Xecs
  - Cluster CELTIC-NEXT*
  - Cluster SMART*
  - Cluster EUROGIA*
  - Ad hoc Globalstars calls*
  - Ad hoc annual EUREKA calls*

*Depends on annual budget and possibilities
